Outlook Integration Feature in AIM+

In order to use Outlook in AIM+, you must have opened Outlook in SWP/TWP BEFORE trying to email from AIM+ or you will get a User Error Report. Additionally, you must have the "ClickYes" utility enabled or you will get an Allow/Deny message.

The ClickYes is not a shortcut on your AIM+ Desktop. It is in the Start|Programs Menu:

The utility will then appear in the lower right corner of the desktop in the systray:

To configure the utility to run at startup, right-click on the 'Click' icon in the systray and select 'Start on Logon':
