

Florida Promulgated Rate Guide

Effective January 1, 2013

## HOW TO USE THIS BOOKLET

Find the LIABILITY AMOUNT under the first column "POLICY AMOUNT", then look under the next column for the "PREMIUM" for either Owner's, Leasehold or Loan policies.

Liability Amounts in this booklet are listed as follows:

Up to \$1,000,000 listed in increments of \$100

From \$1,000,000 up to \$10,000,000 listed in increments of \$1,000

From \$10,000,000 up to \$92,900,000 listed in increments of \$100,000

To compute any insurance premium on a fractional thousand (except as to minimum premiums), multiply such fractional thousand by the rate per thousand applicable, considering any fraction of \$100.00 as a full \$100.00.

## CALCULATING PREMIUMS

The following are premium rates to be charged by title insurers in the State of Florida for the respective types of title insurance contracts according to the *RULES OF THE FLORIDA STATE TREASURER AND INSURANCE COMMISSIONER, Chapter 4-186 Title Insurance and Section 627.7825 F.S.*

### ORIGINAL OWNER'S, LOAN, AND LEASEHOLD RATES AND SPLITS

### MINIMUM PREMIUM - \$100.00

#### Example of Calculation of Original Rates and Premium Splits:

An Owner's policy in the amount of \$3 million is issued on residential property. No prior policy exists. An ALTA 4.1 Condominium endorsement is issued with the policy.

<b>Sub-Total</b>	<b>\$3 million</b>		<b>\$10,075.00</b>		<b>\$6,802.50</b>	<b>\$3,272.50</b>
ENDORSEMENTS						
ALTA 4.1 Condominium End.			\$25.00	70/30	\$17.50	\$ 7.50
<b>TOTAL</b>			<b>\$10,100.00</b>	<b>70/30</b>	<b>\$6,820.00</b>	<b>\$3,280.00</b>

### SIMULTANEOUS ISSUE RATES

Owners and Loan Policies must have the same effective dates (which includes the filing of record of both the deed to the mortgagor and the mortgage itself), cover **identical land**, and the **Owner's Policy must show the Mortgage as an Exception under Schedule B**. The Owner's Policy is calculated at Original Rates and the **Simultaneous Loan Policy** carries a **minimum rate of \$25.00**. The 70/30 split applies to the Simultaneous Rate. When the Loan Policy amount is higher than the Owner's Policy the **EXCESS** of the Loan Policy is calculated at Original Rates. The new premium spits will apply to the portion of the premium using Original Rates in excess of \$1,000,000.00.

#### EXAMPLES:

- a. **Owner's Policy for \$44,000 with a Simultaneous Loan Policy for \$40,000.**

Owner's Policy: \$44,000 = Premium: \$253.00

Loan Policy: \$40,000 = Premium: \$ 25.00

- b. **Owner's Policy for \$44,000 with a Simultaneous Loan Policy for \$70,000.**

Owner's Policy: \$44,000 = Premium: \$253.00

Loan Policy: \$44,000 @ Standard Fee \$25.00

\$26,000 @ \$5.75 per \$1,000: \$149.50

\$70,000 Premium: \$174.50

### SIMULTANEOUS LEASEHOLD POLICY

When an owner's and a leasehold policy covering identical land are to be issued simultaneously, the premium applicable for the owner's policy shall be the Original Rates. The **rate for the simultaneous leasehold policy will be 30% of the rate for the owner's policy** up to the amount of said owner's policy. The premium rate on the amount of leasehold policy in excess of the owner's policy will be figured at Original Rates in the applicable schedule.

## REISSUE RATES

Provided a **previous Owner's Policy** was issued **insuring the seller or mortgagor in the current transaction** and that both the re-issuing agent the re-issuing underwriter **retain for their respective files copies** of the prior owner's policy(ies), the following reissue rate premiums shall apply if any one of the following criteria is applicable:

1. Policies on real property which is unimproved except for roads, bridges, drain age facilities and utilities where the current owner's title has been insured prior to the application for a new policy, or
2. Policies issued with an effective date of less than three (3) years after the effective date of the policy insuring the seller or mortgagor in the current transaction, or
3. Loan policies issued on refinancing of property insured by an original owner's policy which insured the title of the current mortgagor.

**Any amount** of new insurance, in the aggregate, **in excess** of the amount under the previous policy shall be computed at **Original Rates and Premium Split**.

<b>POLICY AMOUNT</b>	<b>COST PER \$1,000.00</b>	<b>PREMIUM SPLIT</b>
Up to \$100,000	\$3.30	70/30
Over \$100,000 up to \$1,000,000	\$3.00	70/30
Over \$1,000,000 up to \$10,000,000	\$2.00	70/30
Over \$10,000,000	\$1.50	70/30

**MINIMUM PREMIUM - \$100.00**

**To Determine The Amount of the REISSUE CREDIT:**

Using this booklet, look up the liability amount of the prior policy and see the amount shown under the REISSUE CREDIT column.

**Example of Calculation of Reissue Rates and Premium Split:** A loan policy in the amount of \$2 million is issued for a construction loan. The borrower has a previous \$800,000.00 owner’s policy on the same property. A Form 9 Endorsement is issued.

Reissue Rates	Amount of Insurance	Rate (per thous.)	Premium	Premium Split	Agent	Underwriter
\$0 to \$100,000	\$100,000	\$3.30	\$330.00	70/30	\$231.00	\$99.00
Over \$100,000 to \$1 million	\$700,000	\$3.00	\$2,100.00	70/30	\$1,470.00	\$630.00
<b>Original Rates</b>

Over \$1 million to \$5 million	\$1 million	\$2.50	\$2,500.00	65/35	\$1,625.00	\$875.00
<b>Sub-Total</b>			<b>\$5,930.00</b>		<b>\$4,026.00</b>	<b>\$1,904.00</b>
<b>ENDORSEMENTS</b>						
Form 9 End.			\$593.00	70/30	\$415.10	\$177.90
<b>TOTAL</b>	<b>\$2 million</b>		<b>\$6,523.00</b>		<b>\$4,441.10</b>	<b>\$2,081.90</b>

**NEW HOME PURCHASE DISCOUNT**

Provided the seller has not leased or occupied the premises, the original premium for a policy on the first sale of residential property with a one to four family improvement that is granted a certificate of occupancy shall be discounted by the amount of premium paid for any prior loan policies insuring the lien of a mortgage executed by the seller on the premises. In the case of prior loan policies insuring the lien of a mortgage on multiple units or parcels, the discount shall be prorated by dividing the amount of the premium paid for the prior loan policies by the total number of units or parcels without regard to varying unit or parcel value. The minimum new home purchase premium shall be \$200. The new home purchase discount may not be combined with any other reduction from original premium rates.

### Example of Calculating New Home Premium Discount:

Mr. Homebuilder purchases 10 lots and gives a mortgage on the lots to First Federal to secure an acquisition and development loan in the amount of \$500,000. A Loan Policy in the amount of \$500,000 is purchased. Mr. Homebuilder is now selling one of the newly improved lots for \$150,000.

Original Rates	Amount of Insurance	Rate (per thous.)	Premium	Premium Split	Agent	Underwriter
\$0 to \$100,000	\$100,000	\$5.75	\$575.00	70/30	402.50	172.50
Over \$100,000 to \$1 million	\$50,000	\$5.00	\$250.00	70/30	175.00	75.00
<b>Sub-Total</b>	<b>\$150,000</b>		<b>\$825.00</b>		<b>577.50</b>	<b>247.50</b>
Subtract discount for Premium paid for prior Loan Policy*			(\$257.50)	70/30	(180.25)	<b>(77.25)</b>
<b>TOTAL</b>			<b>\$567.50</b>		<b>\$397.25</b>	<b>\$170.25</b>

\*Calculation: \$500,000, prorate 10 lots.  
\$500,000 loan policy premium = \$2,575.00  
\$2,575 divided by 10 = \$257.50 (Discount)

---

The agent **must** obtain documentation that confirms that the homebuilder is entitled to the discount, i.e. prior loan policies, closing settlement statements. The agent should retain this documentation in their files.

The discount may not reduce the cost of the new owner's policy below \$200. The new home purchase premium **may not** be combined with any other reduction from original premium rates.

## SUBSTITUTION LOAN RATES

(a) When the **same borrower** and **the same lender** make a substitution loan on the **same property**, the title to which was **insured by an insurer** in connection with the previous loan, the following premium rates for substitution loans shall apply:

<u>Age of Previous Loan</u>	<u>Premium Rates</u>	<u>Premium Split</u>
3 years or under	30% of the original rates	70/30
From 3 years to 4 years	40% of the original rates	70/30
From 4 years to 5 years	50% of the original rates	70/30
From 5 years to 10 years	60% of the original rates	70/30
Over 10 years	100% of the original rates	70/30

### MINIMUM PREMIUM - \$100.00

- (b) At the time a substitution loan is made, the unpaid principal balance of the previous loan will be considered the amount of insurance in force on which the foregoing premium rates shall be calculated. To these rates shall be added the original rates in the applicable schedules for any new insurance, including any difference between the unpaid principal balance of the previous loan and the amount of the new loan.
- (c) In the case of a substitution loan of \$250,000 or more, when the same borrower and any lender make a substitution loan on the same property, the title of which was insured by an insurer in connection with the previous loan, the premium for such substitution loans shall be the rates as set forth in paragraphs (a) and (b).

The new premium splits do not apply to premiums obtained using substitution loan rates. However, if a policy using both substitute loan rates and original rates is used, then the new premium splits will apply to the portion of the premium using original rates for amounts in excess of \$1 million.

**Example of Calculating Substitution Rates and Premium Splits:**

A Developer is obtaining a loan from *Bank of America* in the amount of \$4 million dollars to pay off an existing loan with SunTrust. SunTrust's loan is 4.5 years old and the balance is \$1,500,000. The Bank of America mortgage will secure the same land on which the SunTrust mortgage was placed. A Form 9 will also be issued on this transaction.

The Substitution Loan Rate shall apply to any endorsement which insures a modification of a mortgage which was insured by an outstanding policy where the modification agreement effects any change in the terms, conditions, priority, or security, other than:

- (a) An extension of the time for payment of the secured obligation;
- (b) Any decrease in the interest rate of the insured mortgage, provided the "cap" on a variable rate mortgage is not greater than the original "cap" and/or the "cap" is not greater than the original fixed rate;
