

SureClose

THE RELIABLE TRANSACTION-MANAGEMENT PLATFORM

Growing a business requires being able to deliver a better experience. That requires having the right partner and the right technology. With SureClose® you have a secure, online transaction-management and document-storage platform that lets all parties involved in a transaction collaborate online.

SureClose provides all interested parties with 24/7 access to important information. It also provides a convenient forum for collaboration. Whether you access it by computer or through the free mobile app for Apple® or Android™ devices, SureClose gives you many ways to improve business processes and deliver a better customer experience.

- Reduce your reliance on paper.
- Monitor the progress of your transaction in real time.
- Post and receive messages.
- Set permissions for what you'd like buyers and sellers to see.
- Enjoy anytime-access to dynamic information.

These, along with many other features, make it easier to

- lower costs (less need for courier and overnight-mail expenses)
- conduct business beyond the confines of brick-and-mortar locations
- involve your customers throughout the process
- eliminate time-consuming phone calls status tracking
- differentiate your business from that of your competitors.

At Stewart we take pride in providing you with numerous technology products and in giving you the confidence that our products will support you over time. SureClose helps improve your business processes in a reliable way.
