AIM+ 8.4.3: Features & Fixes for You

AIM+ 8.4.3 includes enhancements and fixes to **Stewart Access-issued CPLs and policies**. As a result, AIM+ will be offline and unavailable beginning at **Friday, May 15, 2020** at **9:00 p.m. CST** through **Saturday, May 16, 2020** at **1:00 a.m. CST**.

New! Simultaneous Checkbox

A new **Simultaneous** checkbox has been added to the **Stewart Access** *Policies* screen for **Loan and Owner policies**.

Select the Simultaneous checkbox to allow Stewart Access to locate the best **Transaction Codes** for a simultaneous policy. In addition, with this checkbox selected, the **Rate Based On** drop-down on the **Title Insurance line** auto-selects either **Simultaneous Owners or Simultaneous Lenders** (across all Closing Statements, including Closing Disclosure).

New! Override Trans Code Checkbox

A new **Override Trans Code** checkbox has been added to the *Policies* screen for **Stewart Access policies**.

This checkbox gives you the flexibility to override auto-selected **Transaction Codes** as are appropriate per your State. Select the **Override Trans Code** checkbox to display **Available Transaction Codes** you can select for your Stewart Access policy, as required by your State.

AIM+ 8.4.3 Fixes

The following items were fixed in this patch release of AIM+:

- The endorsement **Issue Date** now defaults according to the policy's Issue Date for Non-Stewart Access policies.
- Metadata and communication errors no longer display on CPLs and the Stewart Access *Policies* screen.

Further Assistance

For more information about using AIM+, visit the AIM+ Training Center.

For technical assistance, contact the **Agency Support Center** at (844) 835-1200 or customercare@stewart.com.
