# ATS 8.18.0 Release Notes

---

This document provides a brief explanation of what was fixed and implemented with this release of Advanced Title Search 8.18.0.

**Release Date:** September 15, 2018

## Post-Installation Requirements

On the day of the release, it is *mandatory* that you delete Temporary Internet Files and History prior to logging into ATS. Failure to perform this task will cause functionality issues within ATS, resulting in a work-stoppage situation.

### Deleting Temporary Internet Files and History

(MS Article ID: 260897)

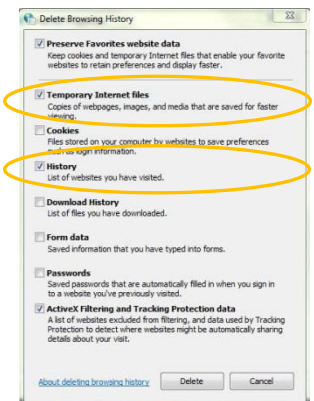

The **Temporary Internet Files** (or cache) folder contains web page content that is stored on your hard disk for quick viewing. This cache permits Internet or MSN® Explorer to download only the content that has changed since you last viewed a web page instead of downloading all the content for the page every time it is displayed.

Administrators can customize Temporary Internet File settings to prevent modifications. Contact your System Administrator if you cannot access the **Internet Options** dialog box or the **General** tab.

### Using Internet Explorer

#### Steps

1. With **Internet Explorer**® open, click the **Tools** icon.
2. Select **Internet Options**. The Internet Properties dialog box displays.
3. On the **General** tab, locate **Browsing history** and click the **Delete** button. The Delete Browsing History dialog box displays.
4. Select **Temporary Internet Files**.
5. Select **Delete**.
6. When complete, click **OK**.

### Using Chrome

If you are using Chrome to access ATS, complete the following steps to deleted Temporary Internet files and history,

#### Steps

1. With **Chrome** open, click the  Customize and Control Google Chrome drop-down list.
2. Choose **History** from the drop-down list.
3. Click **Clear browsing data**.
4. From the **Clear browsing data** pop-up, be sure to select the beginning of time, check **Browsing history** and **Cached images and files**. Click **Clear browsing data** to complete.

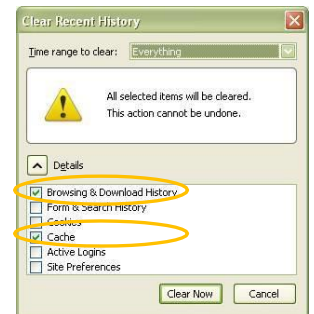

## Using Firefox®

If you are using **Firefox®** to access ATS, complete the following steps to delete Temporary Internet Files and History on the day of the release.

### Steps

1. With the Firefox browser open, click the drop-down menu, move your cursor over History and select **Clear Recent History**; or Click Tools from the toolbar and select **Clear Recent History**.
2. From the **Time range to clear** drop-down, select **Everything**.
3. Select only **Browsing & Download History** and **Cache**.
4. Click **Clear Now**.
5. When the items are cleared, close **all** Firefox browsers, then reopen Firefox.

### Note

Be patient when performing this task, if the **Temporary Internet Files** folder contains a significant amount of web page content, then this process may take several minutes to complete.

# Bookmarks and Shortcuts for ATS

---

We want to take a minute to remind all ATS users that only <https://ats.advantagetitlesearch.com> should be used to access ATS.

If you have any other bookmarks or shortcuts for ATS we ask that delete them from your bookmarks\shortcuts so that only the link above is used.

If you need assistance in making sure you have the correct bookmark\shortcut for ATS please call Customer Care at 855.330.2800, 713.625.2800 or email at [customercare@stewart.com](mailto:customercare@stewart.com).

## Note

---

Logging into ATS via any other means besides <https://ats.advantagetitlesearch.com> will bypass the load balancer and could impact your ability to log into ATS, as well as the load for the ATS servers.

Using only this link will ensure you are directed only to functioning servers as well as balance the number of users on each server. This will help to keep the server speeds functioning at optimal speeds

# Enhancements

---

The following items were added to **Advanced Title Search 8.18.0**:

## All Communities

### Starter Files

**Indexing Info** will be displayed for any **Prior File** found.

## ST WI Community

### WI Waupaca - Landshark Integration

**Landshark** has been successfully integrated with **Advanced Title Search** for *WI Waupaca* Automatic and Manual searches.

## ST IN Community

### INCite Implementation

**INCite** has been implemented within **Advanced Title Search** for *IN Hamilton* and *IN Marion*.

## ST MO/KS Community

### MO Jackson R02 – Subdivision Lookup Module

A **Subdivision Lookup Feature** to **Manual search** has been added for *Jackson County, MO R02* data source. It will allow users to select the correct subdivision and fill in the value on the **Manual search** page to be used for **legal search**.

### MO Platte TR – County Tax Sheet

**Drainage** information will now show up in the **County Tax Sheet** at the bottom.

### DocType Mapping Changes

For *MO/KS*, a new document type of **MISCELLANEOUS/Mobile Home** has been added with **MOMOB5** being the default code.

## ST CA Community

### New Default Code Mapping

Code **CAHEROTAXRW** has been added to the **COUNTYTAX/Countytax** document for *California*.

# Fixes

---

The following items were corrected in **Advanced Title Search 8.18.0**:

## ST MO Community

- Fixed issue where **Street Name** did not contain the direction, in a **Prior File**.
- Fixed issue where **Subdivision Name Filtering** was not producing accurate results

## ST CA Community

- Fixed issue where **Notice of Completion** documents older than one year were showing up on **Credit Decision** product.

# Training

---

For more information, visit the [Advanced Title Search Training Center](#). This online library consists of recorded webinars and other useful documentation for you to begin or continue to use Advanced Title Search.

## Technical Support

For technical support, contact Customer Care at 1.855.330.2800 or [customercare@stewart.com](mailto:customercare@stewart.com).
