ATS 9.5.0 Release Notes

This document provides a brief explanation of what was fixed and implemented with this release of **Advanced Title Search 9.5.0**.

Release Date: February 16, 2019

Post-Installation Requirements

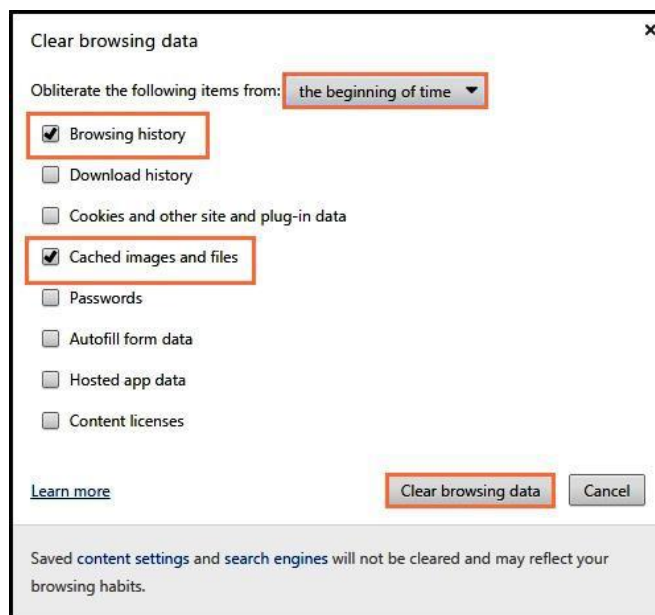

On the day of the release, it is *mandatory* that you delete Temporary Internet Files and History prior to logging into ATS. Failure to perform this task will cause functionality issues within ATS, resulting in a work-stoppage situation.

Deleting Temporary Internet Files and History

When using Chrome to access ATS, complete the following steps to deleted Temporary Internet files and history:

Steps

1. With **Chrome** open, click the  Customize and Control Google Chrome drop-down list.
2. Choose **History** from the drop-down list.
3. Click **Clear browsing data**.
4. From the **Clear browsing data** pop-up, be sure to select the beginning of time, check **Browsing history** and **Cached images and files**. Click **Clear browsing data** to complete.

5. Once done, close **any opened instances** of Chrome and then reopen.

Note

Be patient when performing this task, if the **Temporary Internet Files** folder contains a significant amount of web page content, then this process may take several minutes to complete.

Bookmarks and Shortcuts for ATS

We want to take a minute to remind all ATS users that only <https://ats.advantagetitlesearch.com> should be used to access ATS.

If you have any other bookmarks or shortcuts for ATS we ask that delete them from your bookmarks\shortcuts so that only the link above is used.

If you need assistance in making sure you have the correct bookmark\shortcut for ATS please call Customer Care at 855.330.2800, 713.625.2800 or email at customercare@stewart.com.

Note

Logging into ATS via any other means besides <https://ats.advantagetitlesearch.com> will bypass the load balancer and could impact your ability to log into ATS, as well as the load for the ATS servers.

Using only this link will ensure you are directed only to functioning servers as well as balance the number of users on each server. This will help to keep the server speeds functioning at optimal speeds.

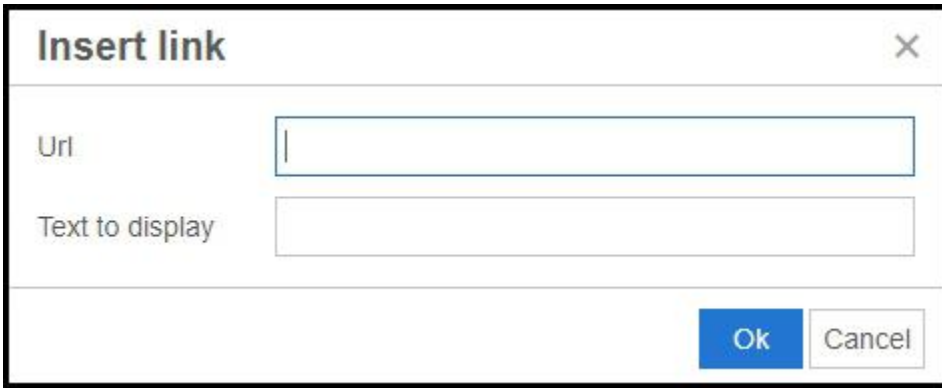

Enhancements

The following items were added to **Advanced Title Search 9.5.0**:

ALL Communities

The following enhancements for **All Communities** were made in this release of Advanced Title Search:

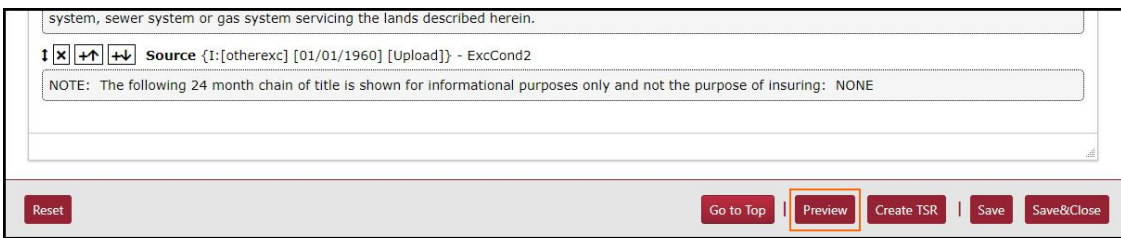

- On the **Insert Link** window from the **Template** screen, *Title* and *Target* fields have been removed.

- Similar to the menu on **TSRI**, a **fixed menu** has been added to the **Manual Search**, so users do not have to scroll down long list of documents to get to the menu.

- On **TSRI**, the selected filter while searching will remain the same, even after reloading the window or saving the order.
- On the **Template** screen, the button to preview template has been moved to the newly added fixed menu at the bottom for easy accessibility.

- In **TSRI**, added the ability to copy/paste files from other communities into a new order. This option called **Copy/Paste TSRI** is available on the ATS Documents screen in the DS column or on the Manual Search result page.

- After clicking on **CREATE TSR** to send it to ResWare, the pop-up that appears will notify users to move out of the **Search Data** tab in ResWare so ATS can update it.

IN Community

The following enhancements for **IN Community** were made in this release of Advanced Title Search:

- Related to the recent ATS-Doxpop integration, a **Preview Image Link** option has been added to the Document Index window and the Manual Search results.

TN Community

The following enhancements for **TN Community** were made in this release of Advanced Title Search:

- In the New UI, added the ability to modify **TSD Templates**.

FL Community

The following enhancements for **FL Community** were made in this release of Advanced Title Search:

- In the Automatic Search, the results containing any of the following will not show up:
 - Clerk Circuit Court
 - Circuit Court Clerk
 - Court Circuit Clerk
 - Clerk of the Circuit Court

Site Changes

The following site changes were made in this release of Advanced Title Search:

- *FL Seminole TR* site was changed.
- *CO Garfield TR* site was changed.

DocType Changes

The following site changes were made in in this release of Advanced Title Search:

- DocType Category **BY-LAWS**, and Sub-Categoy **By-Laws** for *Colorado* has been defaulted to **AG1**.
- **SUBCATEGORY NAME="Other Req"** has been added in **KS MODT00ARW**.

Fixes

The following items were corrected in **Advanced Title Search 9.5.0**:

All Communities

The following fixes for **ALL Communities** were implemented in this release of Advanced Title Search:

- In Automatic Search, an issue was fixed where **OTHER-FILE/Reference Prior File** document were not being saved.
- In TSRI, fixed an issue where users were unable to view/ save locked or unlocked TSRI documents.
- Confirmation message when copying link on an image was removed, if successful. A message will only appear if the copy operation failed.
- When changing the **Type/Type Grouped**, the TSR will refresh and return the user to where the changes were being made, instead of going to the top of the page.

MO Community

The following fixes for **MO Community** were implemented in this release of Advanced Title Search:

- For *MO Platte RO* and *MO Clay RO*, an issue was fixed where documents were not showing up in results due to buggy filtering or other reasons.
- Fixed an issue where **Judgements** listed on a Template were not showing up in the ATS Search screen.

TX/CO/CA/KS Communities

- For TX Starters, fixed an issue where results for **Prior documents** in search were incorrect.
- For CO, fixed issue where **Exceptions** selected in ATS documents were not showing up in TSRI.
- For CA DG, fixed an issue where the document's **PLAT/Assessor Map** was being duplicated in **TSRIndex**.
- For *KS Johnson TR*, fixed issues regarding **Automatic** and **Manual** searches.

Training

For more information, visit the [Advanced Title Search Training Center](#). This online library consists of recorded webinars and other useful documentation for you to begin or continue to use Advanced Title Search.
