ATS 9.7.0 Release Notes

This document provides a brief explanation of what was fixed and implemented with this release of **Advanced Title Search 9.7.0**.

Release Date: April 13, 2019

Post-Installation Requirements

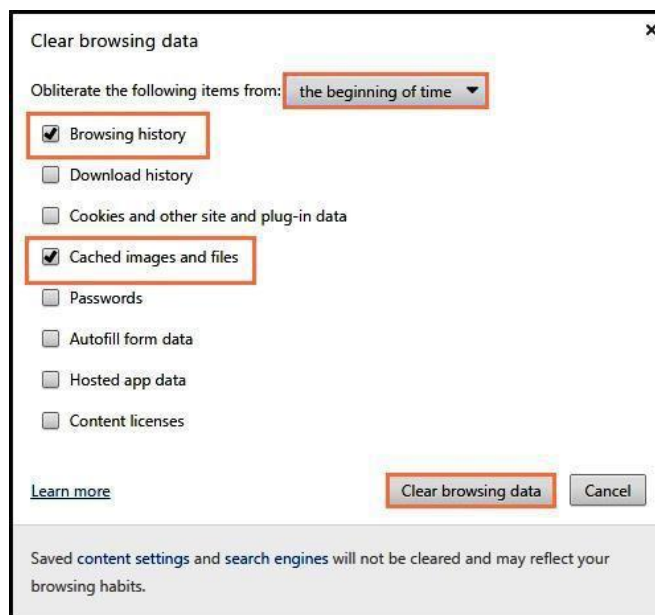

On the day of the release, it is *mandatory* that you delete Temporary Internet Files and History prior to logging into ATS. Failure to perform this task will cause functionality issues within ATS, resulting in a work-stoppage situation.

Deleting Temporary Internet Files and History

When using Chrome to access ATS, complete the following steps to deleted Temporary Internet files and history:

Steps

1. With **Chrome** open, click the  Customize and Control Google Chrome drop-downlist.
2. Choose **History** from the drop-down list.
3. Click **Clear browsing data**.
4. From the **Clear browsing data** pop-up, be sure to select the beginning of time, check **Browsing history** and **Cached images and files**. Click **Clear browsing data** to complete.

5. Once done, close **any opened instances** of Chrome and then reopen.

Note

Be patient when performing this task, if the **Temporary Internet Files** folder contains a significant amount of web page content, then this process may take several minutes to complete.

Bookmarks and Shortcuts for ATS

We want to take a minute to remind all ATS users that only <https://ats.advantagetitlesearch.com> should be used to access ATS.

If you have any other bookmarks or shortcuts for ATS we ask that delete them from your bookmarks\shortcuts so that only the link above is used.

If you need assistance in making sure you have the correct bookmark\shortcut for ATS please call Customer Care at 855.330.2800, 713.625.2800 or email at customercare@stewart.com.

Note

Logging into ATS via any other means besides <https://ats.advantagetitlesearch.com> will bypass the load balancer and could impact your ability to log into ATS, as well as the load for the ATS servers.

Using only this link will ensure you are directed only to functioning servers as well as balance the number of users on each server. This will help to keep the server speeds functioning at optimal speeds.

Enhancements

The following enhancements were made in **Advanced Title Search 9.7.0**:

ALL Communities

The following enhancements for **All Communities** were made in this release of Advanced Title Search:

- In **Manual Searches**, the **Save with Cross Reference** option will be unchecked by default.
- **Result Sheet** has been renamed to **Run Sheet**.
- Enhancements have been implemented to make **Starter Search** more **accurate**.
- For **DataTrace/DataGateway**, an **Interactive Run Sheet** has been implemented. Now users can make changes on the Run Sheet while examining them, instead of making changes later in the TSRI.
- For **Date** fields across ATS, entering **8 digits** for date will be automatically converted to **MM/DD/YYYY** format.
- The pop-up message **TSR Created Successfully** no longer require users to click on **OK**.
- Certain pop-up windows can now be shifted between two or more monitors, instead of clicking on the **Pop-Up Arrow** button to do so.

CA Community

The following enhancements for **CA Community** were made in this release of Advanced Title Search:

- For **Property Insight**, users now have the ability to search for older documents.
- When using **Image Search from DataTree** or **Property Insight** search, users now have the ability to search for multiple **Instr/Book-Page** numbers.
- In the **Code Editor** or **Template Editor**, a button has been added which will convert **hard returns** to **soft returns** when using **Priors**.

CO Community

The following enhancement for **CO Community** was made in this release of Advanced Title Search:

- A filter has been added to **Judgement** documents, which will remove any document older than 6 years and 30 days.

DocType Changes

The following DocType changes were made in this release of Advanced Title Search:

- For *CA*, the following mapping changes were made:
 - **TRACTMAP\Tractmap** has been mapped to **CAES40**.
 - **RESTRICTION\Restriction** has been mapped to **CACC10**.
 - **MISC\Agreement** has been mapped to **CAGE160**.
- For *X1*, **Deed of Trust** has been mapped to **CTS-DOT2**.

Fixes

The following items were corrected in **Advanced Title Search 9.7.0**:

All Communities

The following fixes for **ALL Communities** were implemented in this release of Advanced Title Search:

- In **PRI2**, an issue was fixed where incorrect results were being displayed.
- In **Smart Viewer**, an issue was fixed where ? was being added at the end of every word.
- An issue was fixed where links were redirecting to the wrong server after the **TSR** was created.
- In **TSRI**, an issue was fixed where items checked on a **Prior** file were shown as unchecked.
- An issue was fixed where links in a **Prior** file were broken and **error messages** were being displayed.

CA Community

The following fixes for **CA Community** were implemented in this release of Advanced Title Search:

- For *CA*, fixed issues related to **OCR**.
- For *CA Los Angeles DG*, an issue was fixed related to **multiple** questionable legal documents being detected.
- For *CA Santa Clara TaxPI*, an issue was fixed where **images** of maps were not showing correctly.
- For *CA X1*, fixed an issue where **OCR Name** and **Legal** were being incorrectly detected.
- For *CA Prior*, fixed an issue where documents with the **default date** were not showing up in the search results.
- For *CA Orange DG*, fixed parsing issues in **OCR**.
- For *CA DG*, fixed issue where **Include Common Nicknames** was not working correctly.
- For *CA DG*, fixed issues related to **Legal Description** and **OCR**.

FL Community

The following fixes for **FL Community** were implemented in this release of Advanced Title Search:

- For *FL Osceola PF*, fixed an issue where **Good Document** was being rejected by Legal Validator.
- For *FL Osceola ATI*, fixed an issue where incorrect **Legal** was being detected by Automatic Search.
- For *FL Manatee PF*, fixed an issue where **Prior** was being found as a Reference, instead of Direct.

CO/MO/KS/TN Communities

The following fixes for **various communities** were implemented in this release of Advanced Title Search:

- For *CO*, fixed connection issues between **ATS** and **DTS2/DTG**.
- For *MO CiT (Kansas City)*, fixed **various** issues.
- For *MO Cass CO*, fixed the issues related to logging in on **atsprd1** and **atsprd2** servers.
- For *MOKS PC*, fixed an issue where documents were not being saved from the **Intermediate** results page.
- For *TN Davidson ATS*, fixed an issue where **ATS Prior Search** document were not showing up in Automatic Search.

Training
