

LENDINGQB INTEGRATION – **FOR AN EASIER EXPERIENCE**

Stewart is pleased to announce its upcoming integration with LendingQB, the loan-origination solution for better efficiency. You can now place title orders, find a local Stewart office and get rates with the click of a button. Gone are the days of manual entry! LendingQB's integration with the Stewart Rate Calculator will allow you to access fees directly so that you can close loans more quickly.

Our integration makes it easy to:

- Choose centralized title services or route orders through a local office
- Search properties by address or ZIP code – up to 50 miles
- Directly access Stewart Rate Calculator within your LOS
- Enter loan amounts, buyer and borrower splits and any endorsements
- Import fees from Stewart Rate Calculator directly into the LendingQB fees worksheet
- Collaborate and communicate with Stewart Title within the LOS
- Check order statuses – even cancel orders prior to their being funded
- Boost productivity through improved efficiency

With Stewart you've got a partner who makes it easy for you to deliver a better customer experience.

Visit stewart.com/lendingqb-integration to learn how to get started.
