Stewart Access 2.2.15 Release Notes

Stewart Access 2.2.15 includes enhancements for *Stewart Access Portal and Express.*

Deployment Date: July 17, 2020

New in This Release (Portal)

An overview of new features and modifications to Stewart Access Portal 2.2.15 include:

- For **Register Report**, users no longer need to enter in a **Date Selection** or a **Date Range**.
- On the Stewart Access login page, users can access the **Create Account / Resend Credentials** link.

New in This Release (Express)

An overview of new features and modifications to Stewart Access Express 2.2.15 include:

- When issuing policies, the system will now use the **Company Activation Data** rather than the **User Start Date**.
- The system will now save and display duplicate endorsements.

Portal Enhancements

Register Report – File Number and Date Range Selection

For **Register Report**, users can now also choose to pull report by **File Number**, which will not require the user to enter in a **Date Selection** or a **Date Range**. With this enhancement, users can now reconcile and submit the payments correctly per file.

Data Collection Form (DCF) on the Landing Page

On the login page for Stewart Access, users can now access the **Create Account / Resend Credentials** form. This form will allow users to request their login credentials, or reset their passwords.

Additionally – the newly added **Deactivate Account** option can also be accessed by going to the **Contact** menu and clicking on **Deactivate Account** for **Deactivation Requests**.

Express Enhancements

Display Duplicate Endorsements

In Express, the system will now save and display duplicate endorsements.

Additional Information

Training

More information about Stewart Access functionality is available in the Stewart Access Online Help. For additional training and documentation including Quick Reference Cards, please see the [Stewart Access Training Center](#).

Technical Support
