Stewart Access 2.2.16 Release Notes

Stewart Access 2.2.16 includes enhancements for *Stewart Access Portal and Express*.

Deployment Date: August 21, 2020

New in This Release (Portal)

An overview of new features and modifications to Stewart Access Portal 2.2.16 include:

- For **Policy Register Report**, users can now filter the report by **State**.

New in This Release (Express)

An overview of new features and modifications to Stewart Access Express 2.2.16 include:

- Users can now view the **Jacket** details along with the **Endorsements** and **Post Policy Endorsements** in one single view.
- In Jackets and CPL, the *Buyer/Borrower* and *Seller Business Name* field can now support up to **250** characters.
- *Form Type* and *Form* fields will now default to the most commonly used selections. *Form Type*'s default selection will be based on user's most used **Agency** and **State**. *Form*'s default selection will be based on user's most used **Agency**, **State**, and **Form Type**.

Portal Enhancements

Register Report – Filter by State

For **Policy Register Report**, users can now filter the report by **State**. This will allow users to provide accurate reconciliations and provide **Policy Data** to the appropriate **States**.

Express Enhancements

View All Endorsements

Users can now view the **Jacket** details along with all **Endorsements**, including **PPE(s)** in one view. At the bottom of the Endorsements section, users can click on the new **View Post Policy Endorsements** link to view all the **PPEs** in a pop-up window.

Field Characters - Borrower & Seller Business Name

In Jackets and CPL, the *Buyer/Borrower* and *Seller Business Name* field can now support up to **250** characters.

Fields' Default Selection – Form Type & Form

Form Type and *Form* fields will now default to the most commonly used selections. *Form Type*'s default selection will be based on user's most used **Agency** and **State**. *Form*'s default selection will be based on user's most used **Agency**, **State**, and **Form Type**.

Additional Information

Training

More information about Stewart Access functionality is available in the Stewart Access Online Help. For additional training and documentation including Quick Reference Cards, please see the [Stewart Access Training Center](#).
