

Validating Stewart Access Credentials in eClosing

Even though you may have been issuing CPLs in the eClosing integration, it is going to be necessary to validate your Stewart Access credentials with eClosing in order to issue Jackets.

1. On the eClosing login page enter your Stewart Access username and password then click the Validate button:

stewart Through eClosing's integration with Stewart Access™, you can quickly and easily process Closing Protection Letters (CPL) from directly within eClosing, allowing you to save time and increase productivity.

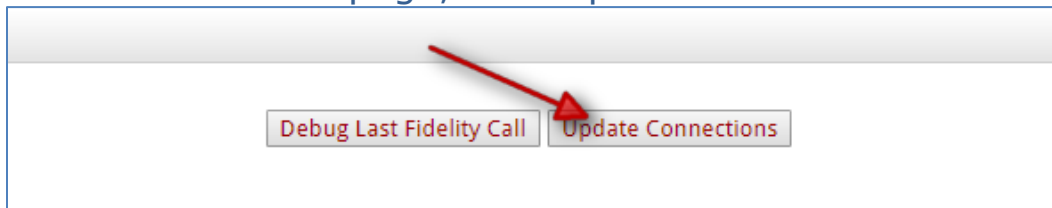

For more information go to stewart.com.

Company Wide Username Password State List Agent ID

pccrowley@twp.titlework ***** Validate

Add a New Username

2. On the next page, click Update Connections.

Debug Last Fidelity Call Update Connections

You may now issue Jackets with the eClosing integration, following the steps as outlined in the User Guide.
