Stewart Now 2.10 Release Notes

Stewart Now 2.10 includes added functionality and enhancements. This document provides users with a brief introduction to new features and functionality implemented with this release.

Deployment Date: October 17, 2019

New in This Release

An overview of new features and modifications to Stewart Now 2.10 Release include:

- Removal of Attachments in Notifications.
- Physical Address not required for Buyers/Sellers.
- Security Improvements.
- Addition of NSW CA Purchase Files.
- Defect Fixes.

Stewart Now Enhancements

Removal of Attachments in Notifications

For all Stewart Now users and business units, the option to send attachments in notifications has been **disabled** and **N/A** will be displayed in the **Attachment** section of the **Order Notifications** page.

However, this change does not apply to **Preliminary/Commitment Report** notifications.

Physical Address not required for Buyers/Sellers

Previously, **Buyers** and **Sellers** registering their account on Stewart Now were required to provide their *Physical Address*. This is no longer required. Now, all **Buyers** and **Sellers** going through the registration process will only need to provide the following information:

- First Name
- Last Name
- Email Address
- Phone Number

Security Improvements

In this release of Stewart Now, multiple enhancements were implemented to improve the overall security of the Web Portal.

Addition of NSW CA Purchase Files

For CTS users only, a new product named **CA Purchase Files** has been added for **NSW**.

Stewart Now Defect Fixes

The following defects were fixed in this release of Stewart Now:

- Fixed an issue where **Zip Codes** were being stored incorrectly, leading to problems when placing an order with ResWare.
- In the Stewart Now Mobile App, fixed an issue where **Unit Numbers** were missing when generating **Mailing Labels** for a **Smart Farm**.

Additional Information

Training
