Stewart Now Enhancements

Combined OrderTrac – Title and Escrow (Single Tracker)

The **OrderTrac** bar that is displayed on the *Order Snapshot* or *Dashboard* page has been updated to combine the tracking bar of both **Title and Escrow** into **one single bar** on orders that have both **Title** and **Escrow** work. For **Orders** that are **Title Only** or **Escrow Only**, you will continue to see the separated **OrderTrac** bars/areas of the portal.

The screenshot shows the Stewart Now web application interface. At the top, there is a navigation bar with 'stewart title' on the left and 'Dashboard', 'Orders', 'Property Search', 'More Tools', and 'Locations' on the right. Below the navigation bar, the main content area is divided into several sections:

- Left Sidebar:** A menu with options: 'This Order', 'Snapshot', 'Detail', 'OrderTrac' (highlighted), 'Contacts', 'Property Information', and 'Comments'.
- Header:** '1700 La Veta Drive, Albuquerque, NM 87110' and a 'Back To All Orders' link.
- ORDERTRAC PROGRESS BY SERVICE:** A central section titled 'Title & Escrow Order 296441'. It features a progress bar with stages: 'Order Opened' (6/24/2019 9:37 AM), 'Earnest Money', 'Title Commitment /Preliminary Report', 'Final Statements', 'Settlement Complete' (7/24/2019 (Est)), and 'Policy'. The 'Order Opened' stage is currently active and highlighted in blue.
- ORDERTRAC STATUS & DOCUMENTS:** A section below the progress bar, currently empty.
- Page Options:** Icons for 'Cancel', 'Print', 'Refresh', and 'Upload'.
- Manage order notifications:** A section for managing notifications.
- Recently Viewed Orders:** A list of three orders: '1756 La Veta Drive', '1770 La Veta Drive', and '1702 La Veta Drive', each with a 'Last viewed' timestamp.

The **New Order Email** and the **Status Update Email** have also been revised to include this combined tracker bar.

AdminTools Online Sign-Ups Time Stamps

When the records are displayed in the **Online Sign-Ups** section of the **AdminTools**, the **Created Date** and **Last Modified** columns will display **UTC** along with their timestamps to lessen time zone confusion.
