

Citrix Workspace App - Installation Notes

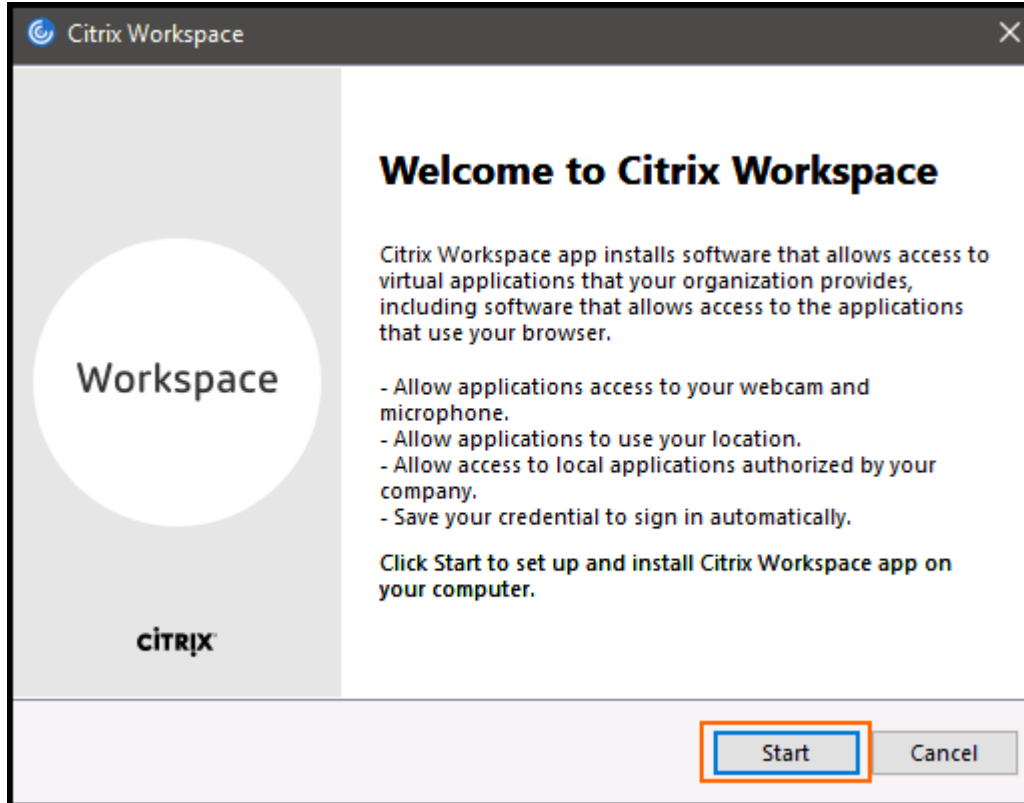

Follow the steps below to install **Citrix Workspace App 19.12.1000** on your machine:

Steps

1. Go to the [Downloads](#) page on **Stewart.com** and download the **Citrix Workspace app 19.12.1000** installation file.

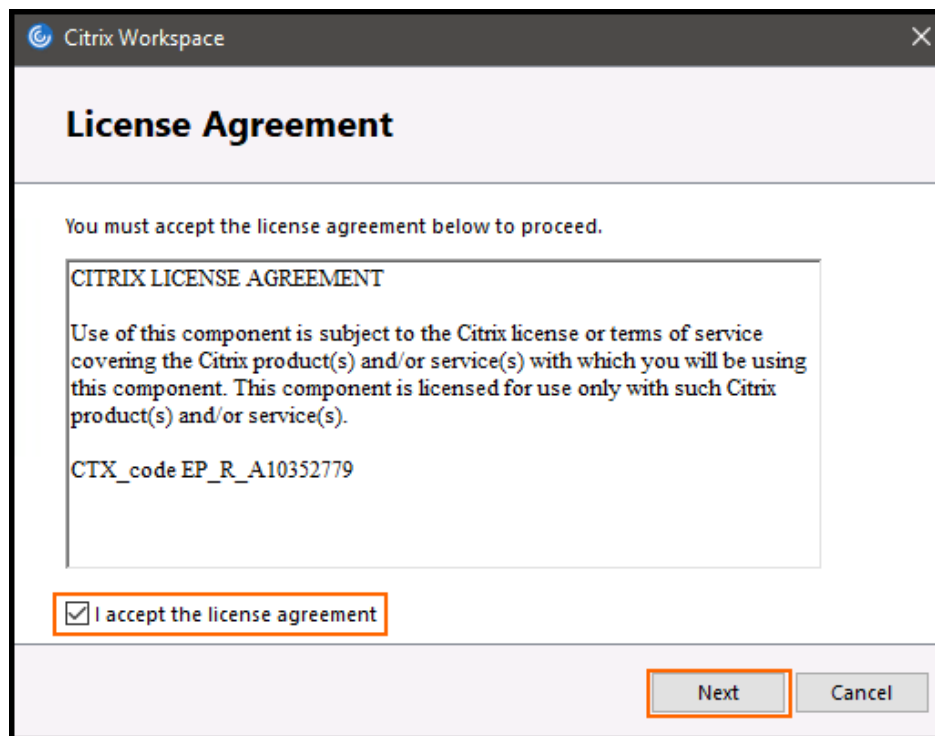

2. Once the download is complete, then open the file and click on **Start**.

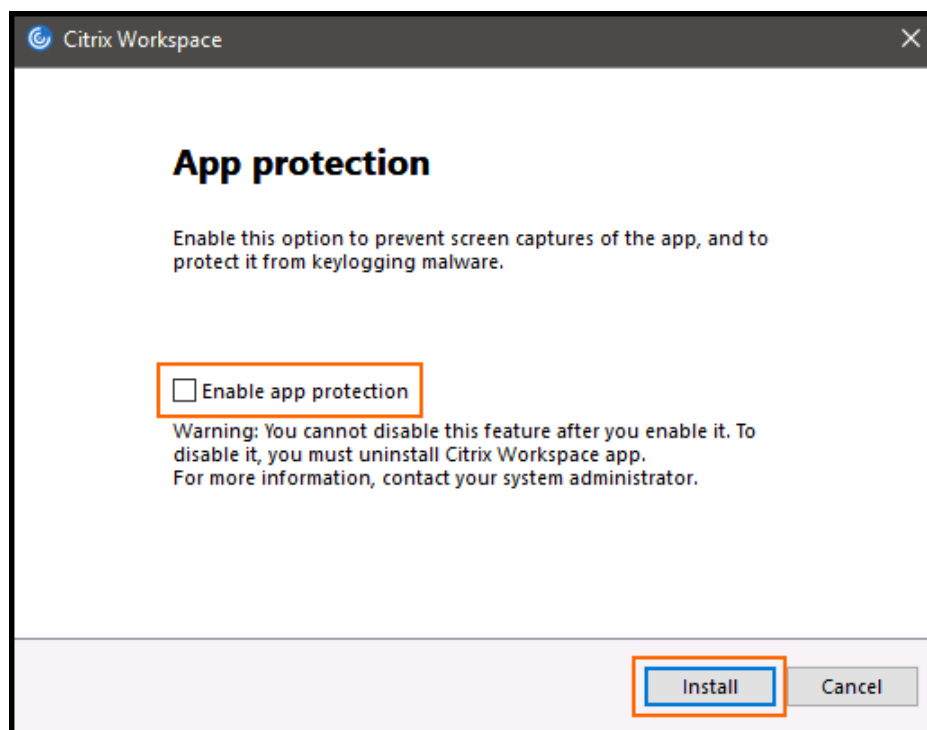

Citrix Workspace App - Installation Notes

3. Check to accept the **License Agreement** and click **Next**

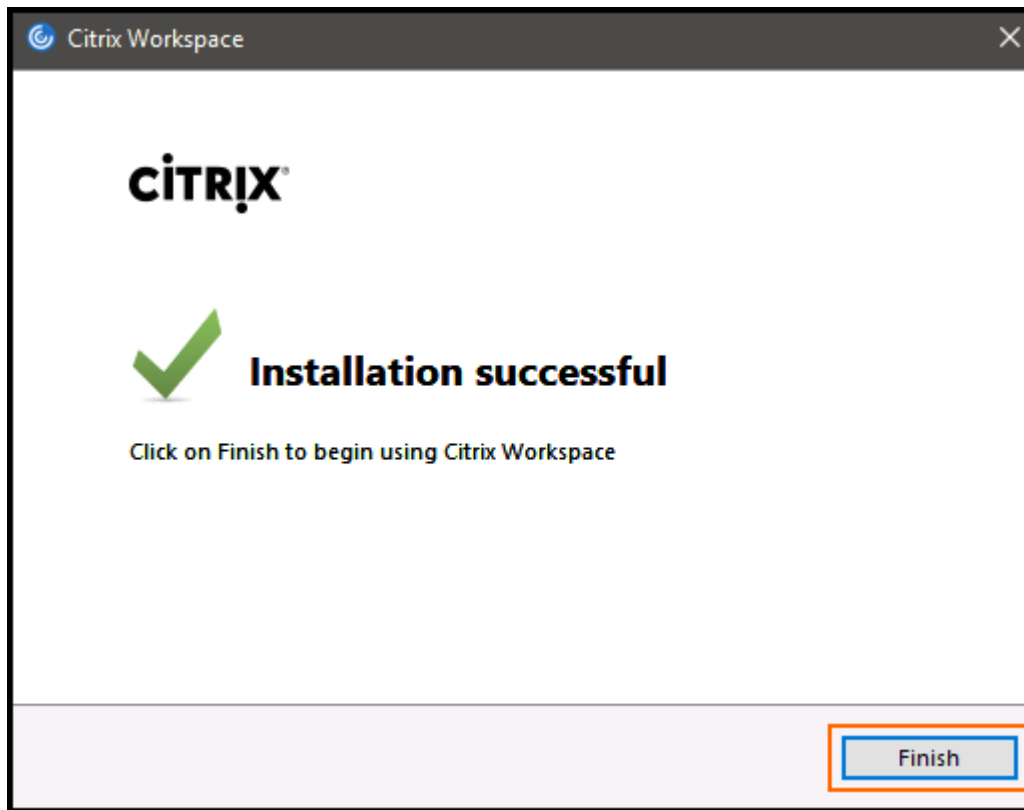

4. Leave the **Enable app protection** unchecked and click on **Install**.

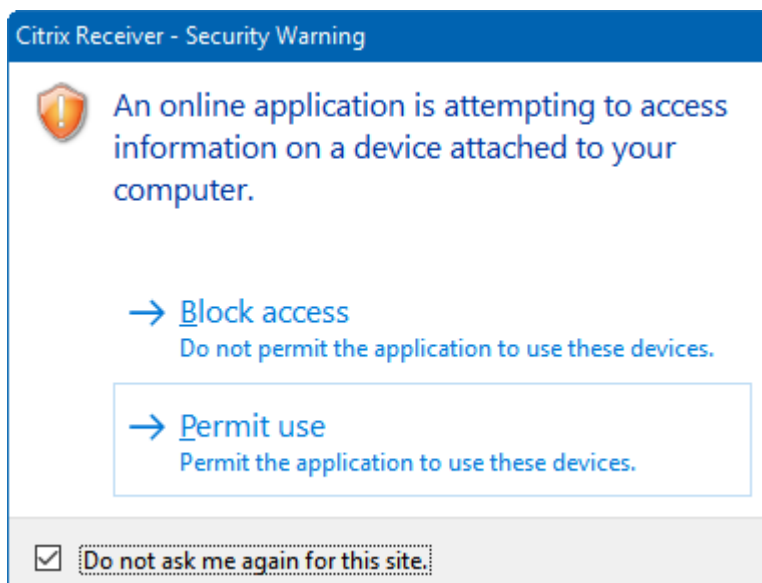

Citrix Workspace App - Installation Notes

5. Click **Finish**.

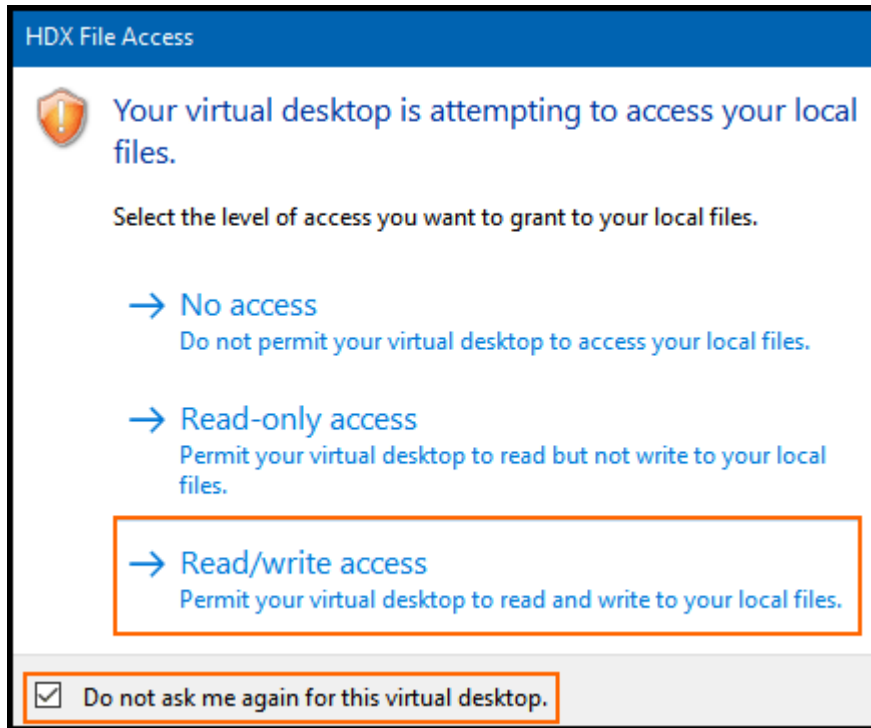

Note: At this point, your machine may ask to reboot.

6. Continue logging into **TitleWorkPlace** or **StewartWorkPlace** as normal.
7. When the *Security Warning* displays, check the **Do not ask me again for this site** option and click on **Permit use**.

Citrix Workspace App - Installation Notes

- When the *HDX File Access* window displays, check the **Do Not ask me again for this virtual desktop** option and then click on **Read/write access**.

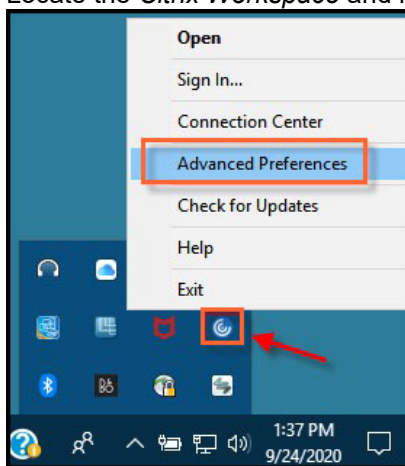

You now have successfully installed **Citrix Workspace App 19.12.1000** on your machine.

Optional Step: Adjust Update Notification Settings

Follow the steps below to disable the notification when a newer version is available.

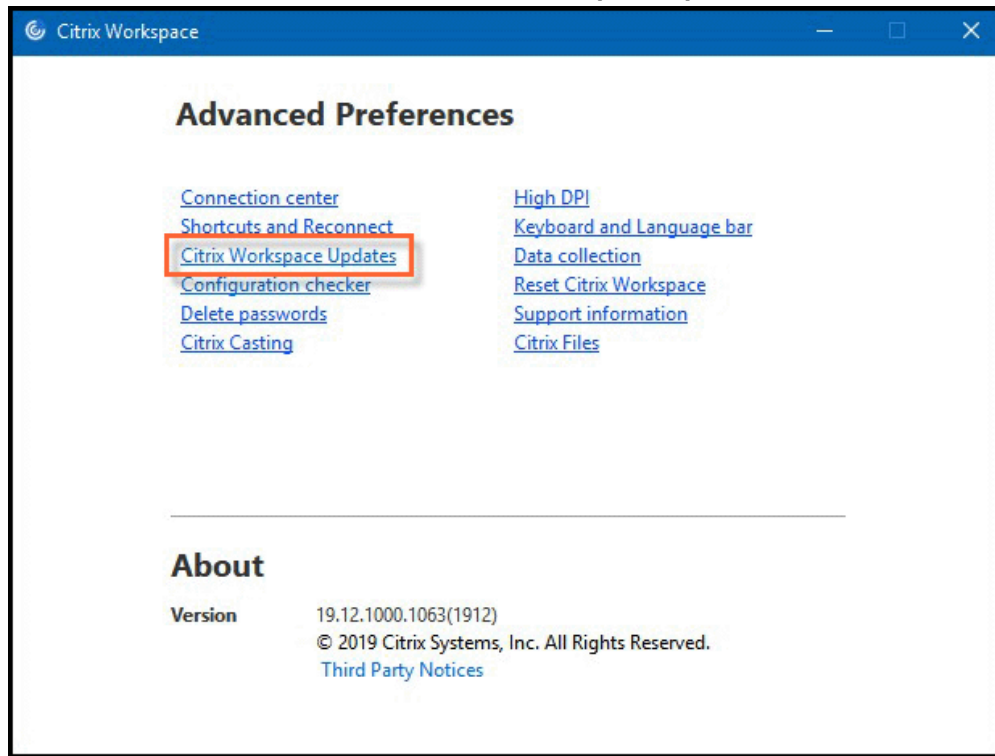

Steps

- From the *Windows* taskbar, click the ^ button to display all programs in the Notification Area.
- Locate the *Citrix Workspace* and right-click to select **Advanced Preferences**.

Citrix Workspace App - Installation Notes

- From Advanced Preferences, select **Citrix Workspace Updates**.

- Select **"No, don't notify me"** and click **Save**.
