

# Austin Zip Codes

# Central Texas Zip Codes

## Key

County     US Interstate     US Highway     State Highway

Maps include ZIP Code boundaries, county boundaries, and highways. ZIP Codes are shaded in one of 5 colors, for easier differentiation between nearby ZIPs. Where possible, ZIP codes will also be labeled with the city name. Box-level or "point" ZIP Codes will not appear. Some labels may overlap. Highways will be colored red or black and labeled with appropriate shields. In cases where a highway changes into a non-highway classified road, the highway may appear to "end". The map legend will include symbols, colors, and labels for all map elements. Any duplication, digital or paper, in whole or in part must retain copyright information.
