### Dinosaur Tracks

Approximately 12 dinosaur footprints that are over 100 million years old.

601 S. Gabriel Dr., Leander, 78641

The exact address will lead you to the parking area but not the tracks. The parking area is in front of a fenced off maintenance area – once there, park and follow the well-beaten foot path down to the river. When you get to the riverbed, head west for about half a mile. Ruts cut in the early 1800s by wagon trains crossing the river are also visible. Tip: if you look back and can still see the bridge, you haven't gone far enough.
