The New York Department of Insurance recognizes statutory accounting practices prescribed or permitted by the State of New York for determining and reporting the financial condition and results of operations of a title insurance company, for determining its solvency under the New York Insurance Law. The National Association of Insurance Commissioners' (the NAIC) *Accounting Practices and Procedures* manual, version effective January 1, 2001 (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of New York. The state has adopted certain prescribed accounting practices, which differ from those found in NAIC SAP, in accordance with Regulation 172 of the New York State Insurance Law.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Revenue recognition and related expenses - Premiums are earned at the time the policies are issued.
