

PAPERLESS

INTRODUCING **SureClose**  **TITLE EDITION**
FOR TITLE, ESCROW AND ATTORNEY CLOSING SERVICES

WEB-BASED TRANSACTION MANAGER

SureClose TITLE EDITION is the proven solution to transform your title, escrow or attorney closing operations into paperless file management. With SureClose, you'll streamline your operation, increase profits and deliver superior service — all without replacing your existing production software.

COMPLETE PAPERLESS OFFICE

SureClose makes paperless filing and web-based transaction management services as easy as pressing the fax button. Your staff simply faxes or scans your files and documents to your secure SureClose web site. Files are then available 24/7 for review and management enterprise-wide from any location by authorized parties.

BEST PRACTICES. IMPROVED SERVICE. INCREASED PROFITS

SureClose makes it easy to standardize file processing workflow and best practices. Improve quality of service by enforcing company-wide process flows and quality control standards. Cut costs by sharing a single, real-time file and document set and a shared file calendar and communication log, enterprise-wide. At closing, files are easily archived onto your computer or CD-ROMs for permanent digital storage. You'll exceed customer expectations by keeping them informed online 24/7 and delivering a company branded consumer CD-ROM at closing.

YOUR SUCCESS IS ASSURED

At Stewart Realty Solutions, we help customers manage more than 2000 new paperless transactions each day! We're here to assure your move to paperless filing is a success and offer a proven track record of satisfied customers managing over a half million online transactions.
