## **SnapClose and Stewart Announce New Integration Features**

**Rumson, NJ (September 2, 2019)** – Cornerstone Management Solutions has partnered with Stewart Title Guaranty Company to provide users with new integration features. This new integration allows SnapClose clients to have access to policy jackets and closing protection letters (CPLs).

SnapClose is a comprehensive cloud-based title insurance software production system that makes generating settlement documents simpler and facilitates communication across all parties. These new features help streamline the digital closing experience for its users.

Electronic policy jackets and CPLs add value and convenience to the SnapClose user experience, especially due to its ability to auto populate fields which saves users time and headaches.

"We're thrilled to announce our partnership with Stewart to provide our clients access to incredibly rich technology solutions. This latest integration will provide title agents direct access within the SnapClose platform to order electronic CPL and Policy Jackets from Stewart, ultimately improving efficiency and cutting costs" stated SnapClose CTO, Richard Pisciotta.

"This integration with SnapClose helps our Stewart Trusted Providers™ spend more time focusing on their customers and less time on manual process," said Tara Smith, Stewart's Group President, Agency Services.

SnapClose has proven success in the real estate transaction management space, with clients and partners located throughout the country. For more information on these integration features please visit [snapclose.com](http://snapclose.com) or call 1 (877) 476-2725.
