

OUR RATE CALCULATOR MAKES IT EASY

TO GET BUSINESS DONE.

At Stewart Title Guaranty Company, we go to great lengths to make your job easier and help you differentiate your business. One way we do that is with our online rate calculator. These time-saving tools put customer quotes just seconds away so that you don't miss opportunities to move business forward. Plus, the continual improvements to our rate calculator gives you an advantage with lenders looking to access quotes quickly.

Streamlined, Simplified Use and Efficiency

Enjoy an easier quote process with the Stewart Rate Calculator. This mobile-optimized tool enables quick or complex quotes that can be included in Closing Disclosure documents or as part of the title-and-closing process.

With the Stewart Rate Calculator you can:

- quote premium fees, settlement costs and endorsements accurately and efficiently
- select lender's and owner's policy endorsements
- embed a link on your website for purposes of displaying your business's location
- select a settlement office where users can receive fees and custom pricing
- get Ernst-integrated recording fees and transfer taxes
- enjoy an updated display that features additional sections for fee and tax quotes
- market your business to lenders looking for time-saving tools.

And with more features being continuously added to the Stewart Rate Calculator, it continues to provide a better, more streamlined experience, while making it easy to get a variety of other quotes, too:

Buyer's Close Sheet – Quickly assess how much money a buyer will need at closing.

Seller's Net Sheet – Accurately determine what payments and fees a seller will owe. This handy tool helps real-estate professionals estimate closing costs for buyers or net proceeds for sellers. It also lets you

- brand the net sheet with your agency, logo and contact information
- customize fees for your area
- print, email and save results as a PDF.

At Stewart, we never stop working to simplify processes. Our Stewart Rate Calculator makes it easy to get the quotes you need.
