State/County

Prior to utilizing a calculator, it is recommended to select the state and county of the property to be used with the calculator. This will ensure that the calculator will provide all information formatted correctly.

1. Select the property state from the State dropdown list.
2. Select the property county from the County dropdown list.
3. Enter the property zip code in the Zip Code field (optional).
4. Click Cancel if no changes are made to the State and County fields.
5. Click Apply to save the changes made to the State and County fields.

Disclaimer

Disclaimer

Stewart Title Guaranty Company, its suppliers and its subsidiaries and affiliates, including Stewart Title Insurance Company (collectively, "Stewart") take reasonable measures to ensure the quality of the data and the other information made available on this website. Nevertheless, because of the possibility of human, computer, or mechanical error, whether by Stewart's sources or by others, Stewart does not guarantee the accuracy, adequacy, or completeness of any of this information. The information is provided for informational purposes and therefore, Stewart does not make any express or implied warranties regarding this information, or the use of the Stewart C3 calculator. You should independently verify all information obtained from this website.

The information provided is based upon typical, residential transactions thus, the estimate may vary, and additional charges may be included, when other types of transactions are involved, when unusual conditions of title are encountered, when special risks are insured against, or when special services are requested.

Each calculator contains a Disclaimer reminding the preparer and consumers of the Stewart Estimated Closing Costs Calculator (C3) that while all efforts are being made to provide the most accurate of information, there is always the chance for errors due to many reasons.

Note

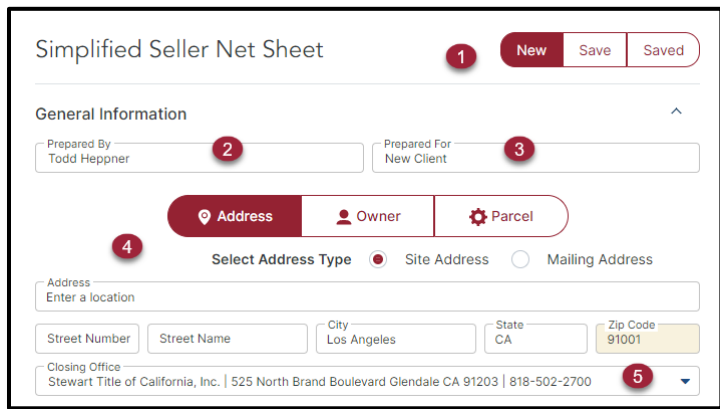

The disclaimer can be set for each state based upon the property location.

Simplified Seller Net Sheet

The Simplified Seller Net Sheet calculator will show estimated fees and costs for the seller on a proposed transaction. The difference between this calculator and the Seller Net Sheet is that this calculator does not include any Buyer Costs.

General Information

The screenshot shows the 'Simplified Seller Net Sheet' interface. At the top right, there are three buttons: 'New' (callout 1), 'Save', and 'Saved'. Below this is the 'General Information' section. It contains two text input fields: 'Prepared By' (callout 2) with the value 'Todd Heppner' and 'Prepared For' (callout 3) with the value 'New Client'. Below these are three tabs: 'Address' (callout 4), 'Owner', and 'Parcel'. Under the 'Address' tab, there is a 'Select Address Type' section with radio buttons for 'Site Address' (selected) and 'Mailing Address'. Below this is an 'Address' input field with the placeholder 'Enter a location'. Further down are fields for 'Street Number', 'Street Name', 'City' (with 'Los Angeles' entered), 'State' (with 'CA' entered), and 'Zip Code' (with '91001' entered). At the bottom, there is a 'Closing Office' section with the text 'Stewart Title of California, Inc. | 525 North Brand Boulevard Glendale CA 91203 | 818-502-2700' (callout 5) and a dropdown arrow.

1. The buttons at the top of the screen allow for the preparer to save calculations or select from saved calculations to update them.
 - a. Click New to begin a new calculation (button is the default when opening the calculator).
 - b. Click Save to save the calculation into the cloud so it can be accessed again later.
 - c. Click Saved to show the saved calculations to select to edit.
2. The Prepared By field will default to the name of the person logged into the tool – this is an editable field.
3. The Prepared For field is where an agent can put the name of their agency, for example, to appear on the calculation – this is an editable field.
4. Choose to search for the property by the address, owner, or parcel/APN.

Type the Address of the property for the proposed transaction. Google Maps will attempt to autofill the address as the information is entered. When found from Google Maps, click the address. If property is not found, it can be manually typed into this field. The City, State and Zip Code will auto populate from Google Maps, if chosen, otherwise can be manually entered.

Note

- When searching by the Parcel/APN – please do not add any dashes
- When searching by the Parcel/APN & Owner – please be sure to type the county of the property and then select the correct County/State for the auto-fill.

5. Select the desired Closing Office from the Closing Office dropdown list – the closest office to the property will default into this field when the property address is added.

*This fee has been modified from Stewart Title's default.

- Other fees from the Stewart Rate Calculator will populate into this area, allowing the preparer to edit if desired.

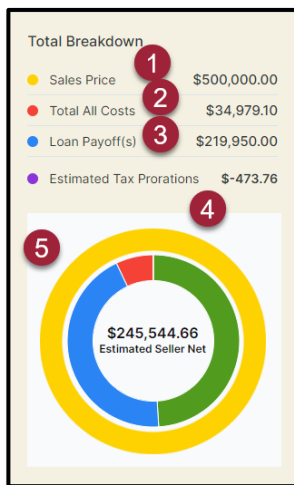

2. Other Closing Costs can be entered or edited here if known.
3. Commissions can be entered or edited here if known – as a percentage or a flat fee.
4. A subtotal of Other Closing Costs will show at the bottom of this section.
5. The number of days of interest can be entered here if known.

Total

1. From the Annual Property Tax shown in the Sale Price and Loan Info section, a proration of the tax amount owed/due will be calculated.
2. The bottom line of the sections for the Estimated Seller Net will display here.

Total Breakdown

The Total Breakdown displays totals of key factors of the Estimated Seller Net, along with a graph with the colors reflected for the following factors:

1. Sales Price
2. Total All Costs
3. Loan Payoff(s)
4. Estimated Tax Prorations
5. Estimated Seller Net amount graph for a visual reference

Sharing the Calculator Results

When the calculator results are ready to be shared, there are options from which you can choose.

The results can be shared via text, which will include a link to a PDF of the results. A prompt to enter the phone number will appear – messaging rates will apply, if applicable.

The results can be printed, emailed, or saved as either a Quick or Detailed version of the estimated results.

Graphic Estimate option will include the graphic image of the Total Breakdown.

Multiple Offer is only available on the Multiple Offers calculator and will include the other offers that were entered into the calculator for comparison purposes.

Remember to save your estimated results to the cloud by clicking the Save button at the top of the page so that the estimate can be edited or modified without having to start over.

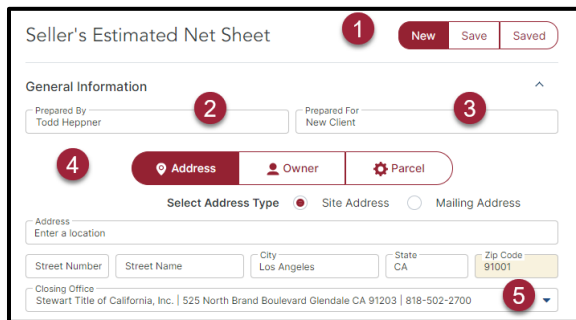

Seller Net Sheet

The Seller Net Sheet calculator will show estimated fees and costs for the seller on a proposed transaction. The Multiple Offers calculator works the same way, but with the option of adding multiple offers to compare side-by-side on the output.

General Information

The screenshot shows the 'Seller's Estimated Net Sheet' form. At the top, there are three buttons: 'New', 'Save', and 'Saved', with a red circle '1' next to the 'New' button. Below this is the 'General Information' section. It contains two text input fields: 'Prepared By' (with 'Todd Heppner' entered) and 'Prepared For' (with 'New Client' entered), with red circles '2' and '3' respectively. Below these are three tabs: 'Address' (selected), 'Owner', and 'Parcel', with a red circle '4' next to the 'Address' tab. Under the 'Address' tab, there is a 'Select Address Type' section with radio buttons for 'Site Address' (selected) and 'Mailing Address'. Multiple Offers

Use the Next Offer button to add other offer data for comparison on the calculator output.

The 'Multiple Offers' section contains two buttons:

- Next Offer (2)**: A light red button.
- Done**: A dark red button.

Sharing the Calculator Results

When the calculator results are ready to be shared, there are options from which you can choose.

The results can be shared via text, which will include a link to a PDF of the results. A prompt to enter the phone number will appear – messaging rates will apply, if applicable.

The results can be printed, emailed, or saved as either a Quick or Detailed version of the estimated results.

Graphic Estimate option will include the graphic image of the Total Breakdown.

Multiple Offer is only available on the Multiple Offers calculator and will include the other offers that were entered into the calculator for comparison purposes.

Tip!

Remember to save your estimated results to the cloud by clicking the Save button at the top of the page so that the estimate can be edited or modified without having to start over.

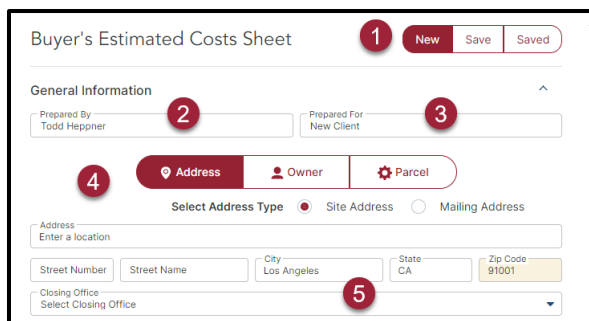

Buyer Costs Sheet

The Buyer Costs Sheet calculator will show estimated fees and costs for the buyer on a proposed transaction.

General Information

The screenshot shows the 'Buyer's Estimated Costs Sheet' form. At the top, there are three buttons: 'New' (1), 'Save', and 'Saved'. Below this is the 'General Information' section. It includes a 'Prepared By' field (2) with 'Todd Heppner' and a 'Prepared For' field (3) with 'New Client'. There are three tabs: 'Address' (4), 'Owner', and 'Parcel'. Under the 'Address' tab, there is a 'Select Address Type' section with radio buttons for 'Site Address' (selected) and 'Mailing Address'. Below this is an 'Address' field with a placeholder 'Enter a location'. Further down are fields for 'Street Number', 'Street Name', 'City' (Los Angeles), 'State' (CA), and 'Zip Code' (91001). At the bottom, there is a 'Closing Office' dropdown menu (5) with 'Select Closing Office'.

1. The buttons at the top of the screen allow for the preparer to save calculations or select from saved calculations to update them.
 - a. Click New to begin a new calculation (button is the default when opening the calculator).
 - b. Click Save to save the calculation into the cloud so it can be accessed again later.
 - c. Click Saved to show the saved calculations to select to edit.
2. The Prepared By field will default to the name of the person logged into the tool – this is an editable field.
3. The Prepared For field is where an agent can put the name of their agency, for example, to appear on the calculation – this is an editable field.
4. Choose to search for the property by the address, owner, or parcel/APN.

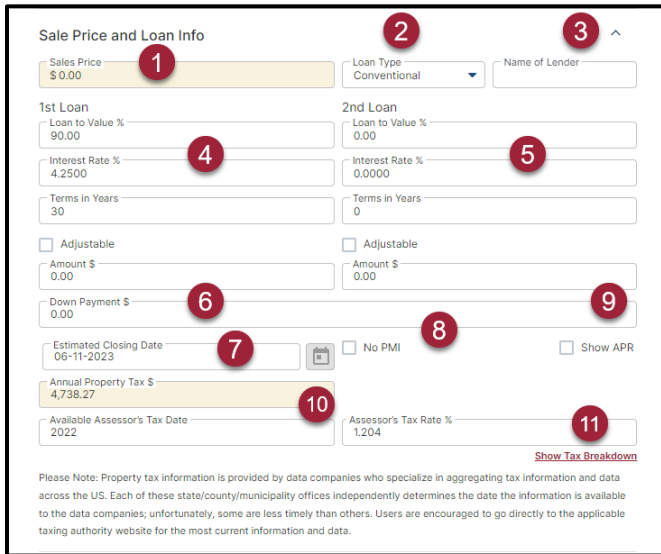

Type the Address of the property for the proposed transaction. Google Maps will attempt to autofill the address as the information is entered. When found from Google Maps, click the address. If property is not found, it can be manually typed into this field. The City, State and Zip Code will auto populate from Google Maps, if chosen, otherwise can be manually entered.

Note

- When searching by the Parcel/APN – please do not add any dashes
- When searching by the Parcel/APN & Owner – please be sure to type the county of the property and then select the correct County/State for the auto-fill.

5. Select the desired Closing Office from the Closing Office dropdown list – the closest office to the property will default into this field when the property address is added.

Sale Price and Loan Info

*This fee has been modified from Stewart Title's default.

- Enter Loan Discount % or Amount, if applicable.
- Other fees from the Stewart Rate Calculator will populate into this area, allowing the preparer to edit if desired.
- Commission or Brokerage can be added as either a percentage or amount.
- Total of Commission or Brokerage will be displayed.

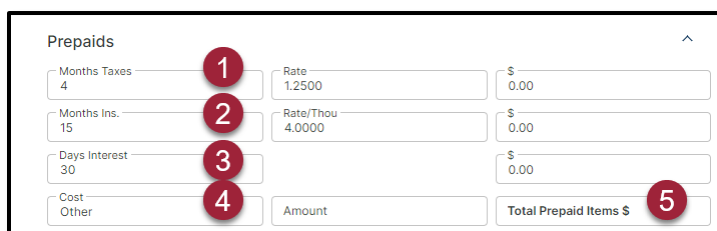

Closing Costs Continued...

The screenshot shows a form titled "Closing Costs Continued..." with a table structure. The table has four columns: Cost, Type, Rate, and Total. There are ten rows, each with a text input for Cost, a dropdown for Type, a text input for Rate, and a text input for Total. The first row has "Other" in the Cost field, "Flat Fee" in the Type dropdown, and "0.00" in the Rate field. The Total field for the first row is "0.00". The last row has "Total Closing Costs \$" in the Cost field and "0.00" in the Total field. Numbered callouts are placed over the form: 1 is over the first "Other" text input, 2 is over the first "Flat Fee" dropdown, and 3 is over the first "0.00" Rate input.

1. Additional Closing Fees can be edited here if they populate from the Stewart Rate Calculator or entered if desired.
2. Additional Closing Fee Cost Type can be selected here from the dropdown list if a Closing Cost Fee is entered or shown – choose from Flat Fee or as a percentage of Loan Amount or Sales Price.
3. Additional Closing Fee Rate will calculate here if as a percentage or entered here if as a flat fee.

Prepays

The screenshot shows a form titled "Prepays" with several input fields. There are four rows of inputs: "Months Taxes" with a value of 4, "Rate" of 1.2500, and "\$" of 0.00; "Months Ins." with a value of 15, "Rate/Thou" of 4.0000, and "\$" of 0.00; "Days Interest" with a value of 30, and "\$" of 0.00; and "Cost Other" with an "Amount" input. A "Total Prepaid Items \$" field is at the bottom right. Numbered callouts are placed over the form: 1 is over the "Months Taxes" value, 2 is over the "Months Ins." value, 3 is over the "Days Interest" value, 4 is over the "Cost Other" text input, and 5 is over the "Total Prepaid Items \$" field.

1. Enter the Prepays for the Monthly Property Taxes – enter months and rate or amount.
2. Enter the Prepays for the Monthly Homeowner's Insurance – enter months and rate or amount.
3. Enter the number of days of prepaid interest or amount.
4. Enter additional costs if desired.
5. Total of Prepaid Items will calculate here.

Sharing the Calculator Results

When the calculator results are ready to be shared, there are options from which you can choose.

The results can be shared via text, which will include a link to a PDF of the results. A prompt to enter the phone number will appear – messaging rates will apply, if applicable.

The results can be printed, emailed, or saved as either a Quick or Detailed version of the estimated results.

Remember to save your estimated results to the cloud by clicking the Save button at the top of the page so that the estimate can be edited or modified without having to start over.

The option to print, email, or save a loan comparison is also available. The comparison will look at loans for different amounts, different CLTV's, and different terms will be presented in a side-by-side format.

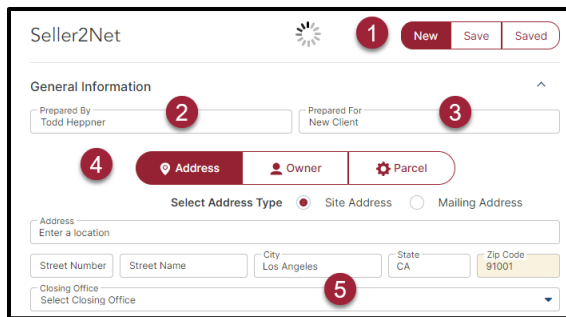

Seller 2 Net

The Seller Net Sheet calculator will show estimated fees and costs for the seller on a proposed transaction.

General Information

The screenshot shows the Seller2Net calculator interface. At the top, there are buttons for 'New', 'Save', and 'Saved'. Below this is the 'General Information' section. It includes fields for 'Prepared By' (defaulting to 'Todd Heppner') and 'Prepared For' (defaulting to 'New Client'). There are three tabs: 'Address', 'Owner', and 'Parcel', with 'Address' selected. Below the tabs, there is a 'Select Address Type' section with radio buttons for 'Site Address' (selected) and 'Mailing Address'. The 'Address' field is populated with 'Enter a location'. Below this, there are fields for 'Street Number', 'Street Name', 'City' (defaulting to 'Los Angeles'), 'State' (defaulting to 'CA'), and 'Zip Code' (defaulting to '91001'). At the bottom, there is a 'Closing Office' dropdown menu.

1. The buttons at the top of the screen allow for the preparer to save calculations or select from saved calculations to update them.
 - a. Click New to begin a new calculation (button is the default when opening the calculator).
 - b. Click Save to save the calculation into the cloud so it can be accessed again later.
 - c. Click Saved to show the saved calculations to select to edit.
2. The Prepared By field will default to the name of the person logged into the tool – this is an editable field.
3. The Prepared For field is where an agent can put the name of their agency, for example, to appear on the calculation – this is an editable field.
4. Choose to search for the property by the address, owner, or parcel/APN.

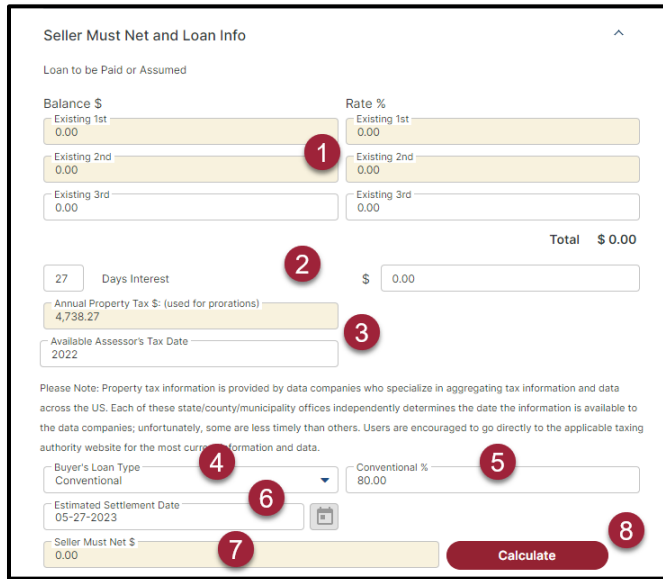

Type the Address of the property for the proposed transaction. Google Maps will attempt to autofill the address as the information is entered. When found from Google Maps, click the address. If property is not found, it can be manually typed into this field. The City, State and Zip Code will auto populate from Google Maps, if chosen, otherwise can be manually entered.

- When searching by the Parcel/APN – please do not add any dashes
- When searching by the Parcel/APN & Owner – please be sure to type the county of the property and then select the correct County/State for the auto-fill.

5. Select the desired Closing Office from the Closing Office dropdown list – the closest office to the property will default into this field when the property address is added.

Sharing the Calculator Results

When the calculator results are ready to be shared, there are options from which you can choose.

The results can be shared via text, which will include a link to a PDF of the results. A prompt to enter the phone number will appear – messaging rates will apply, if applicable.

The results can be printed, emailed, or saved as either a Quick or Detailed version of the estimated results.

Tip!

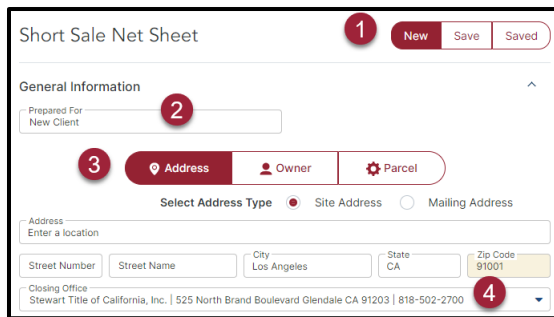

Remember to save your estimated results to the cloud by clicking the Save button at the top of the page so that the estimate can be edited or modified without having to start over.

Rent vs Buy

This calculator will allow for comparing the purchase vs renting the same home to determine at what point purchasing would be a better value than renting, if at all.

General Information

General Information

Prepared By: Todd Heppner (1)

Prepared For: New Client (2)

Address: Enter a location (3)

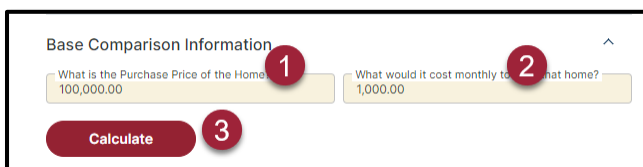

City: Los Angeles State: CA Zip Code: 91001

1. The Prepared By field will default to the name of the person logged into the tool – this is an editable field.
2. The Prepared For field is where an agent can put the name of their agency, for example, to appear on the calculation – this is an editable field.
3. Type the Address of the property for the proposed transaction. Google Maps will attempt to autofill the address as the information is entered. When found from Google Maps, click the address. If property is not found, it can be manually typed into this field. The City, State and Zip Code will auto populate from Google Maps, if chosen, otherwise can be manually entered.

Note

This calculator does not allow for saving to the cloud. This calculation will always need to be performed from scratch.

Base Comparison Information

Base Comparison Information

What is the Purchase Price of the Home? 100,000.00 (1)

What would it cost monthly to rent that home? 1,000.00 (2)

Calculate (3)

1. Enter the Purchase Price of the property.
2. Enter the Monthly Rent Payment for that same property.

Note

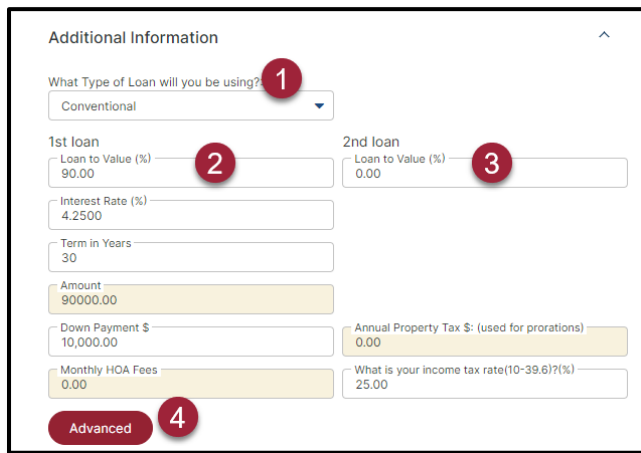

Do not enter a desired monthly rent payment – please enter a realistic or actual monthly rent payment for the subject property.

- Click the Calculate button to generate the graph.

Tip!

The graph can take a few seconds to fully generate – please be patient.

Rent Vs Buy Comparison

General Information

Base Comparison Information

Additional Information

Disclaimer

Stewart Title Guaranty Company, its suppliers and its subsidiaries and affiliates, including Stewart Title Insurance Company (collectively, "Stewart") take reasonable measures to ensure the quality of the data and the other information made available on this website. Nevertheless, because of the possibility of human, computer, or mechanical error, whether by Stewart's sources or by others, Stewart does not guarantee the accuracy, adequacy, or completeness of any of this information. The information is provided for informational purposes and therefore, Stewart does not make any express or implied warranties regarding this information, or the use of the Stewart C3 calculator. You should independently verify all information obtained from this website.

The information provided is based upon typical, residential transactions thus, the estimate may vary, and additional charges may be included, when other types of transactions are involved, when unusual conditions of title are encountered, when special risks are insured against, or when special services are requested.

Methodology

Our rent vs. buy calculator methodology compares the total cost of renting with the total cost of buying by looking at a number of factors that affect renting and purchasing. Unlike virtually every Rent vs Buy calculator available on the internet, we use "actual" closing costs from our Stewart Now Calculators based on the zip code the property is located in. Additionally when we calculate the future sale of the property you purchased, we do not use a simple flat, one rate fits all sales cost estimate but rather "real" Sellers Closing Costs calculated dynamically from our Stewart Now Calculators. The cost of renting, includes the monthly rent and renter's insurance. The cost of buying, is based on the purchase price and the type of financing selected (FHA, VA, USDA and Conventions loans); this will accurately produce the down payment and buyer closing costs including Prepaids that may be required by the loan type. We also automatically include the costs of Mortgage Insurance as required by the loan you selected. The monthly mortgage payment includes Principal, Interest, Taxes, Insurance and any required monthly Mortgage Insurance Premium plus monthly HOA fees entered by the user. We calculate income tax deductions for mortgage interest and property taxes; We automatically run appreciated Property Values through our Stewart Now Calculators for each year of ownership and produce accurate sales proceeds and seller closing costs; then use a net present value calculation to compare the cost of rent vs buying. Most of the factors can be tailored to your personal situation in the Advanced Settings.

Sharing the Calculator Results

When the calculator results are ready to be shared, there are options from which you can choose.

The results can be printed, emailed, or saved as either a Quick or Detailed version of the estimated results.

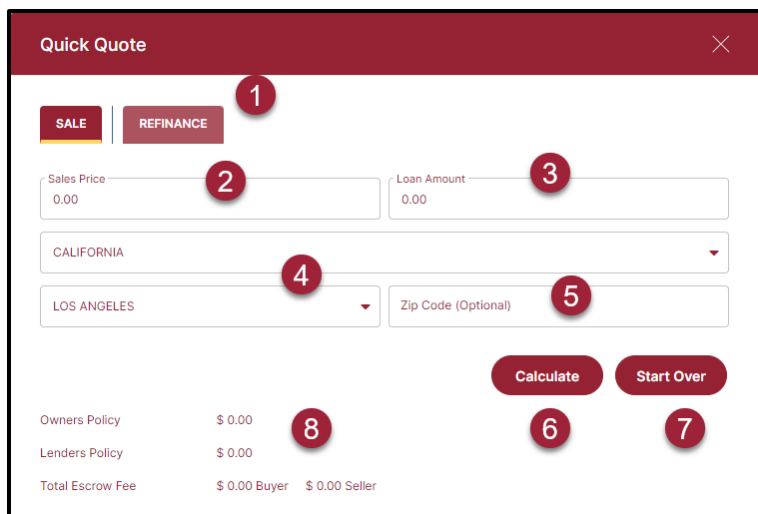

Quick Quote

This calculator will provide a quick summary of policy premium and escrow fees without details.

Sale

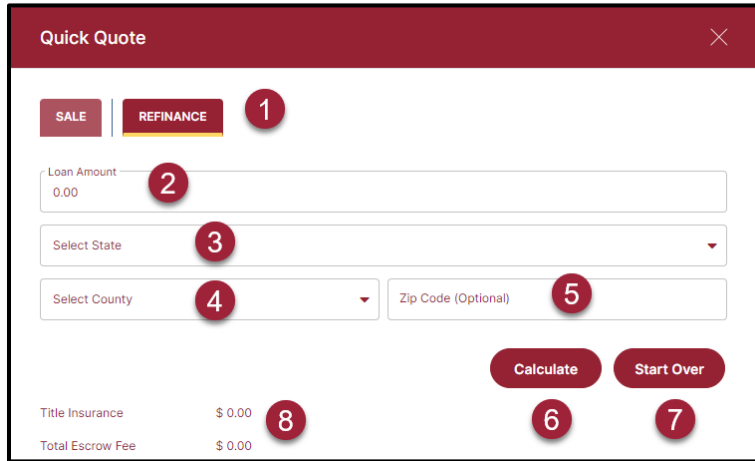

The screenshot shows the 'Quick Quote' form with the following elements and callouts:

- 1. Transaction type tabs: **SALE** and **REFINANCE**.
- 2. Sales Price input field.
- 3. Loan Amount input field.
- 4. State and County dropdown menu (currently showing CALIFORNIA and LOS ANGELES).
- 5. Zip Code (Optional) input field.
- 6. Calculate button.
- 7. Start Over button.
- 8. Results section showing:
 - Owners Policy: \$ 0.00
 - Lenders Policy: \$ 0.00
 - Total Escrow Fee: \$ 0.00 Buyer \$ 0.00 Seller

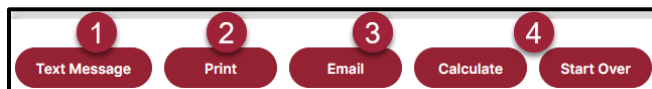

1. Choose the transaction type for the quick quote – in this example, we are using **Sale**.
2. Enter the Sales Price.
3. Enter the Loan Amount, if applicable.
4. Enter the State and County where the property is located.
5. Enter the zip code of the property address (optional).
6. Click the Calculate button to calculate the premiums and escrow fees.
7. Click Start Over to clear the fields and start over.
8. The Owner's Policy, Lender's Policy, and Total Escrow Fees will display.

Refinance

1. Choose the transaction type for the quick quote – in this example, we are using **Refinance**.
2. Enter the Loan Amount.
3. Enter the State where the property is located.
4. Enter the County where the property is located.
5. Enter the zip code of the property address (optional).
6. Click the Calculate button to calculate the premium and escrow fees.
7. Click Start Over to clear the fields and start over.
8. The Title Insurance and Total Escrow Fees will display.

Sharing the Calculator Results

When the calculator results are ready to be shared, there are options from which you can choose. These appear after clicking the Calculate button.

1. The results can be shared via text, which will include a link to a PDF of the results. A prompt to enter the phone number will appear – messaging rates will apply, if applicable.
2. The results can be printed.
3. The results can be emailed as a PDF. A prompt to enter the email address will appear.
4. The Calculate and Start Over buttons remain in view.

Settings

Stewart C3 settings tool allow you to lock Closing Costs within your sheets that do not exist within the Stewart Rate Calculator.

Note

Attempting to lock fees that are in the Stewart Rate Calculator will be overwritten anytime the Stewart Rate Calculator returns values into the Stewart C3 tool.

Save

☐ Remove Buyer's Loan Information from all Seller Net Sheet Estimate prints.

- For some options, the Closing Costs Type can be selected – flat fee, percentage of sales price or loan amount.
- Enter the value into the field (percentage or flat fee amount).
- Select the lock to save the changes and to have them feed to Seller Net Sheets where applicable.

Note

Attempting to lock fees that are in the Stewart Rate Calculator will be overwritten anytime the Stewart Rate Calculator returns values into the Stewart C3 tool.

- Additional fields allow for adding fees that do not auto populate from the Stewart Rate Calculator.

It is recommended to add these at the bottom of the list to prevent Stewart Rate Calculator from overriding fees entered at the top of the list.

- Select the type from the dropdown list – flat fee, percentage of sales price or loan amount.

- Enter the value into the field (percentage or flat fee amount).

- Select the lock to save the changes and to have them feed to Seller Net Sheets where applicable.

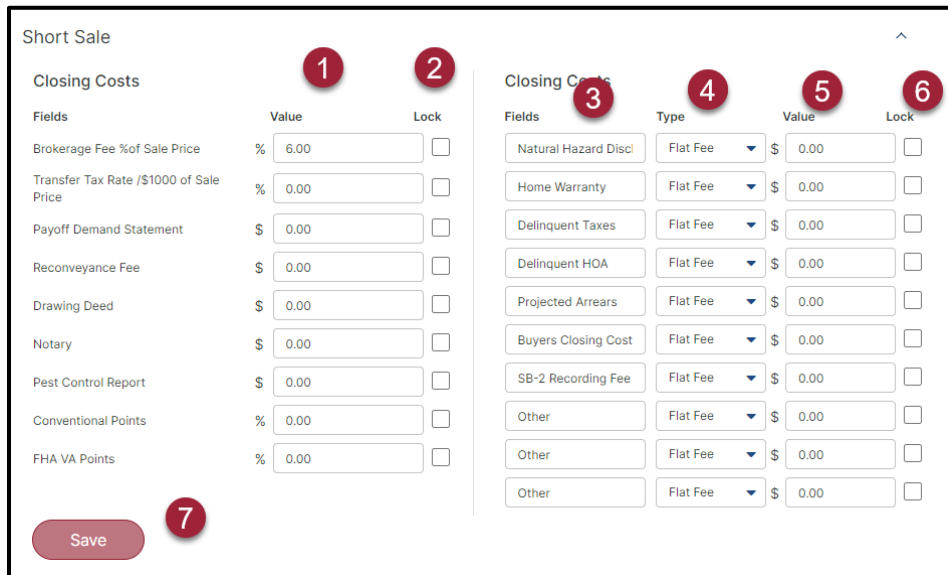

Attempting to lock fees that are in the Stewart Rate Calculator will be overwritten anytime the Stewart Rate Calculator returns values into the Stewart C3 tool.

- Click the Save button to lock your changes into the section.

- Select this checkbox to remove Buyer's Loan Information from any Seller Net Sheets generated.

Short Sale

The screenshot shows the 'Short Sale' section of the Stewart C3 tool. It contains two tables for 'Closing Costs'. The left table has columns for 'Fields', 'Value', and 'Lock'. The right table has columns for 'Fields', 'Type', 'Value', and 'Lock'. A 'Save' button is at the bottom left. Numbered callouts point to specific elements: 1 points to a value field, 2 points to a lock checkbox, 3 points to a field in the right table, 4 points to a type dropdown, 5 points to a value field in the right table, 6 points to a lock checkbox in the right table, and 7 points to the Save button.
